FINAL ESSAY
Topic Ideas—Brainstorming Page

- **Write down one to three, or more, areas of focus** you think you might be interested in for your final paper. A particular character you want to explore more? Two characters you want to compare? A passage that you want to get further into? Any question you have about the novel that you want to try to answer?

- **Once you make your list, freewrite** about any or all of the ideas, beginning with the reason for your interest and then exploring any possible questions or ideas you have about the topic. Keep writing until you _fill up the lines_. Try to keep the pen moving.

**Brainstorm:**

________________________________________________________________________
